Directors' Report

Your directors present their report on the consolidated entity (referred to hereafter as the "Group" or "Oakridge International" or "the Company") consisting of Oakridge International Limited and its controlled entities for the financial year ended 30 June 2023.

Directors

The following persons were directors of Oakridge International Limited during the financial year and up to the date of this report unless otherwise stated:

Mr. Con Unerkov Executive Chairman, CEO and director

Mr. Elvis Diao Non-executive director Mr. Peter John Whelan Non-executive director

Company secretaries

Ms. Julie Edwards

Principal activities and changes in state of affairs

Oakridge International is engaged in the business of selling professional healthcare technology equipment and solutions to healthcare facilities. Oakridge International develops and distributes its own range of nurse call hardware and software solutions for use across multiple healthcare sectors including hospitals, aged care, disability care and supported independent living. Oakridge International has recently focused on expanding into delivering assisted independent living technologies utilising synergies with Oakridge International's Internet of Things (IoT) platform.

The Company continues to look for opportunities to expand its business and revenue base by exploring other emerging business in the technology sector focusing on renewable energy, energy storage solutions, new energy vehicles and energy saving materials. These activities remain at an exploratory stage which may require shareholders and/or regulatory approval but there is no guarantee that the Company will enter any of these sectors. We shall keep the shareholders and the market informed if we decide to pursue any new such business or opportunity, if at all. The IoT and Healthcare sectors remain the focus of the Company.

The were no significant changes in the nature of the Group's activities. There were no significant changes in the state of the Group's affairs during the year.

Dividends

No amounts have been paid or declared by way of dividend during the year.

Significant events after the balance date

The significant events after the balance sheet date are set out in Note 28 of the financial statements.

Review and results of operations

The Group realised a loss after tax for the full-year of \$116,112 (2022: loss of \$527,259) from its continuing operations. The following provides a summary of the Group's activities and achievements during the course of the financial year:

- i) Continued to successfully streamline the operations.
- ii) In July 2022, the Company received the Research and Development Tax Refund of \$131,501 attributable to the R&D Tax Incentive Refund application made in June 2022 for the financial year ended 30 June 2021.
- iii) In July 2022, the Convertible Note and interest accrued totaling \$221,611 was paid in cash to the Convertible Note holder. This relates to a convertible note which expired in June 2022.
- iv) In July 2022, the Company announced that the legacy issue of the plugging, abandonment and remediation of the Salamander 1 Geothermal Well had been completed and the Company had surrendered the Geothermal Exploration Licence GEL 223. The Company also announced that it had received confirmation of a discharge on the bank guarantee to the value of \$100,000 on the public and commercial licence register.
- v) In November 2022, the Company received the Research and Development Tax Refund of \$149,741 attributable to the R&D Tax Incentive Refund application made in October 2022 for the financial year ended 30 June 2022.

Review and results of operations (Continued)

- vi) In December 2022, the Company re-appointed Moore Australia Audit (Vic) as the Company's auditor. The re-appointment follows the withdrawal of the resolution of appointment of the Company's auditor at the Company's AGM due to an administrative oversight.
- vii) In March 2023, the Company changed its Principal Place of Business to Suit 3, Level 3, 89 Pirie St, Adelaide SA 5000.

Prospects

The Group will continuously monitor its overhead costs and cashflow, continue to look at strengthening its capital base and seek strategic partners to further develop its business.

Information on directors

The names and details of Oakridge International Limited's directors as at balance date and up to the date of this report are set out below, unless noted otherwise.

Mr. Con Unerkov (Executive chairman, CEO and director)

Experience and expertise

Mr. Con Unerkov ("Mr. Unerkov"), was originally appointed non-executive chairman and director on 31 December 2019. On the 3 February 2021, Mr. Unerkov was appointed into an executive role as CEO and remained as Chairman and Director.

Mr. Unerkov is an Australian based businessman with more than 25 years of local and international senior executive experience. Throughout his career, Mr. Unerkov has worked as an executive and chief executive officer for a number of companies both in the private and public sectors. He has significant experience in the financial markets with a focus on structuring, M&A and corporate financing for both private and public companies, simultaneously providing parallel guidance for companies to gain market recognition, shareholder value and liquidity.

Mr. Unerkov is the current Chairman of a financial technology company (Fintech) using automation, big data and artificial intelligence to deliver credit risk analysis to the fixed income markets and the Chairman of a company focussed on providing clean energy charging, energy storage solutions and zero emission mobility. Mr. Unerkov is a former Chairman and Executive director of Integrated Media Technology Limited, a company listed on the Nasdaq Capital Markets.

Ms. Julie Edwards ("Ms. Edwards") has had significant experience and involvement in the management of accounting and finance functions of companies. Ms. Edwards holds a Bachelor of Commerce, is a member of CPA Australia, holds a CPA Public Practice Certificate and is a registered Tax Agent.

Meetings of directors

The number of meetings of the Group's Board of Directors (including meetings of the Board committees) held during the year, and the numbers of meetings attended by each director are as follows:

	Board of Dire	ectors	Audit Committee		
	Eligible	Attended	Eligible	Attended	
Mr. Con Unerkov	8	8	-	-	
Mr. Elvis Diao	8	8	2	1	
Mr. Peter John Whelan	8	8	2	2	

There were no remuneration committee meetings during the financial year. The above does not include any circular resolutions approved by the board during the year from 1 July 2022 to 30 June 2023.

Shares under option

At the end of the financial year and at the date of this report, there were no outstanding options over ordinary shares in the Group.

Remuneration report (audited)

(a) Policy for determining the nature and amount of key management personnel remuneration

The remuneration committee of Oakridge International Limited is responsible for determining and reviewing compensation arrangements for the directors and the executive team. The Board's remuneration policy is to ensure that the remuneration package properly reflects the person's duties and responsibilities, with the overall objective of ensuring maximum stakeholder benefit from the retention of a high-quality board and executive team. Such officers are given the opportunity to receive their base emolument in a variety of forms, with the intention that the manner of payment chosen by the recipient is optimal to the recipient without creating an undue cost on the Group.

In accordance with best practice corporate governance, the structure of non-executive director and executive remuneration is separate and distinct.

The Board remains confident that its remuneration policy and the level and structure of its executive remuneration is suitable for the Group and its shareholders.

(i) Non-executive director remuneration

Objective

The Board seeks to set aggregate remuneration at a level which provides the Group with the ability to attract and retain directors of the highest calibre, whilst incurring a cost which is acceptable to shareholders.

Structure

Remuneration of non-executive directors is determined by the Board, within the maximum amount approved by the shareholders from time to time (currently set at an aggregate of \$300,000 per annum). The Board intends to undertake an annual review of its performance and the performance of the Board committees against goals set at the start of the year.

The amount of aggregate remuneration sought to be approved by shareholders and the manner in which it is apportioned amongst directors is reviewed annually. The Board considers advice from time to time from external consultants as well as the fees paid to non-executive directors of comparable companies when undertaking the annual review process. During the financial year, the Board did not receive any advice from external consultants in respect to the annual review process.

Certain directors received a fee for being a director of the Group, which was not linked to director's performance. Directors who are called upon to perform extra services beyond the director's ordinary duties may be paid additional fees for those services.

The remuneration of non-executive directors for the year ended 30 June 2023 is detailed in this remuneration report.

Remuneration report (continued)

(ii) Senior executive remuneration

Objective

The Group aims to reward executives with a level and mix of remuneration commensurate with their position and responsibilities within the Group so as to:

- Reward executives for Group and individual performance against targets set by reference to appropriate benchmarks;
- Align the interest of executives with those of shareholders;
- Link reward with the strategic goals and performance of the Group; and
- Ensure total remuneration is competitive by market standards.

Structure

In determining the level and make-up of executive remuneration, the Board has had regard to market levels of remuneration for comparable executive roles. It is the Board's policy that employment contracts are entered into with all senior executives.

(iii) Variable remuneration - short and long term incentives

Obiective

The objectives of the incentive arrangements are to:

- Recognise the ability and efforts of the employees of the Group who have contributed to the success of the Group and to provide them with rewards where deemed appropriate;
- Provide an incentive to the employees to achieve the long-term objectives of the Group and improve the performance of the Group; and
- Attract persons of experience and ability to employment with the Group and foster and promote loyalty between the Group and its employees.

Structure

No short or long-term incentives have been provided to executive management during the reporting period.

(b) Remuneration, Group performance and shareholder wealth

The development of remuneration policies and structure are considered in relation to the effect on Group performance and shareholder wealth. They are designed by the Board to align Director and Executive behaviour with improving Group performance and ultimately shareholder wealth.

The performance of the consolidated entity for five years to 30 June 2023 are summarised below:

	2023	2022	2021	2020	2019 (restated)
(Loss)/profit attributable to owners					
of the Group (dollars)	(116,112)	(531,030)	603,219	(132,755)	(3,783,244)

The factors that are considered to affect total shareholders return ("TSR") are summarised below:

	2023	2022	2021	2020	2019
Share price (dollars)	0.072	0.073	0.001	0.001	0.001
Change in share price	0.001	0.072	-	-	(0.002)
Dividends declared	Nil	Nil	Nil	Nil	Nil
Basic and diluted EPS (cents) ⁽¹⁾	(0.01)	(0.03)	0.05	(0.01)	(0.50)

(1) All previously reported share amounts have been restated to reflect the consolidated its shares share capital of 200 ordinary shares in the Company into 1 ordinary share in the Company effective on 1 December 2021.

(c) Key management personnel

KMP are the non-executive directors, executive directors, and employees who have the authority and responsibility for planning, directing and controlling the activities of the consolidated entity. On that basis, the individuals classified as KMP are set out below:

Name Title

Mr. Con Unerkov Executive chairman, CEO and director

Mr. Elvis Diao

Non-executive director

Mr. Peter John Whelan

Non-executive director

Remuneration report (continued)

(d) Details of remuneration

Compensation paid, payable or provided by the Group or on behalf of the Group, to key management personnel is set out below. ⁽¹⁾ Mr. Con Unerkov's remuneration is paid via a consultancy agreement to a company controlled by Mr. Unerkov.

⁽²⁾ Mr. Elvis Diao's remuneration consists of \$4,500 for director fees and additional consultant work for the company to the value of \$21,000.

Remuneration report (continued)

(f) Service & consultancy agreements

On appointment to the Board, non-executive directors enter into a service agreement with Oakridge International Limited in the form of a letter of appointment ("Director Agreement"). The letter summarises the Board policies and terms, including compensation, relevant to the office of director. Remuneration and other terms of employment for the CEO and the other key management personnel are also formalised in service agreements.

Mr. Con Unerkov (Executive Chairman and Chief Executive Officer)

Mr. Con Unerkov was originally appointed Chairman and Non-Executive Director on 31 December 2019. On 3 February 2021, Mr. Unerkov was appointed into an executive role as Chief Executive Officer and remained as Chairman and Director. Mr. Unerkov is contracted at a monthly remuneration of \$16,666 via a consultancy agreement with a company controlled by Mr Unerkov. The consultancy agreement has no fixed term and is terminatable by either party with six months' notice.

Mr. Elvis Diao (Non-executive director)

Mr. Diao was appointed Non-Executive Director on 24 April 2020. Mr. Diao was not originally entitled to remuneration under his Director Agreement and from 1 April 2022 his remuneration was changed to \$1,500 per month. Mr. Diao's contract may be terminated with no notice from either party.

Mr. Peter John Whelan (Non-executive director)

Mr. Whelan was appointed Non-Executive Director on 29 January 2021. Mr. Whelan's remuneration is \$1,500 per month.

(g) Share-based compensation

Options may be granted to attract and retain key management personnel. The Board has rules that contain restrictions on removing the 'at risk' aspect of the options granted to executives. Executives may not enter into any transactions designed to remove the 'at risk' aspect of an instrument before it vests.

There are no performance hurdles attached to options granted other than service vesting conditions. In the event of termination (specified circumstances) only vested options are entitled to be exercised. Unvested options are forfeited.

The assessed fair value at grant date of options granted to the individuals is allocated equally over the period from grant date to vesting date, and the amount is included in the remuneration tables above. Fair values at grant date are independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

No options were outstanding at the beginning of the financial year and no options were granted to directors or other key personnel during the financial year.

(h) Equity instruments disclosures relating to key management personnel

(i) Unlisted option holdings

No unlisted options over ordinary shares in the Group were held during the year by directors of the Group and other key management personnel of the Group, including their personally related parties.

(ii) Ordinary share holdings

Ordinary shares held directly, indirectly or beneficially by each key management person, including their personally related entities, are shown below.

2023 ²	Balance at start of the year	Acquired during the year	Other changes ¹	Balance at the end of the year
Mr. Con Unerkov	-	-	-	-
Mr. Elvis Diao	-	-	-	-
Mr. Peter John Whelan	-	-	-	-
20222	Balance at start of the year	Acquired during the year	Other changes ¹	Balance at the end of the year
Mr. Con Unerkov	-	-	-	-
Mr. Elvis Diao	-	-	-	-
Mr. Peter John Whelan	-	-	-	-

^{1.} the amount in other changes is the individual's shareholding at the date he commenced or ceased to be a key management person, as applicable, in addition to the individual's on-market trading.

(iii) Listed option holdings

No listed options over ordinary shares in the Group were held during the year by directors of the Group and other key management personnel of the Group, including their personally related parties.

(i) Loans to key management personnel

There were no loans to key management personnel at any time during the financial year.

(j) Other transactions with key management personnel

There were no other transactions with key management personnel at any time during the financial year.

(k) External remuneration consultant advice

No external remuneration consultant has been utilised during the financial year.

END OF REMUNERATION REPORT

^{2.} all previously reported share amounts have been restated to reflect the consolidated its shares share capital of 200 ordinary shares in the Company into 1 ordinary share in the Company effective on 1 December 2021.

Insurance of officers and indemnities

During or since the end of the year, the Group has not given any indemnity to a current or former officer or auditor against a liability or made any agreement under which an officer or auditor may be given any indemnity of the kind covered by the *Corporations Act* 2001.

During the year, the Group paid premiums in respect of directors' and officers' indemnity insurance contracts for the period ended 30 June 2023. The insurance contracts offer continuing indemnity to officers of the Group where the person is no longer an officer at the time the claim is made. The Group paid premiums of \$32,000 (2022: \$39,760) to insure the directors of the Group during the financial year. This does not include such liabilities that arise from conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for them or someone else or to cause detriment to the Group. It is not possible to apportion the premium between amounts relating to the insurance against legal costs and those relating to other liabilities.

Proceedings on behalf of the Group

The Group is not aware that any person has applied to the court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Group, or to intervene in any proceedings in which the Group is a party, for the purpose of taking responsibility on behalf of the Group for all or part of those proceedings. No proceedings have been brought or intervened in on behalf of the Group with leave of the court under section 237 of the *Corporations Act 2001*.

Environmental regulation and performance

The Group is not subject to any particular or significant environmental regulations.

Non-audit services

Moore Australia continues in office in accordance with section 327 of the *Corporations Act 2001*. The Group may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Group are important. Fees the Group paid or owed to the auditors for these services during the year are included in the following table:

	2023 \$	2022 \$
Audit and other assurance services:		
Audit and review of financial report	51,177	69,656
Non-audit services:		
Tax and other services		-
Total remuneration	51,177	69,656

The Board of directors has considered the position and, in accordance with advice received from the Audit Committee, is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the provision of non-audit services by the auditor, as set out above, did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services have been reviewed to ensure they do not impact the impartiality and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants (including Independence Standards) or the Corporations Act 2001.

Rounding of amounts

The Group is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Report) Instrument 2016/191, relating to the "rounding" of amounts in the directors' report and financial report. The Group has rounded amounts in the directors' report and financial report to the nearest dollar, in accordance with that instrument.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is attached to this report.

This report is made in accordance with a resolution of directors.

1. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements relate to the Group consisting of Oakridge International Limited and its subsidiaries.

Oakridge International Limited is a publicly listed company limited by shares, incorporated and domiciled in Australia and listed on the Australian Securities Exchange (ASX: OAK). Its registered office is:

Level 6, 412 Collins Street, Melbourne VIC 3000.

Basis of preparation

This general purpose financial report has been prepared in accordance with Australian Accounting Standards (including Australian Accounting Interpretations) and the *Corporations Act 2001*. Oakridge International Limited is a for-profit entity for the purpose of preparing financial statements. All amounts are presented in Australian Dollars unless otherwise noted.

Compliance with IFRS

This financial report also complies with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

Historical cost convention

These financial statements have been prepared under the historical cost convention.

Rounding of amounts

The Group is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, relating to the "rounding off" of amounts in the directors' report and financial report. The Group has rounded off amounts in the directors' report and financial report to the nearest dollar, in accordance with that instrument.

Critical accounting estimates and judgements

The preparation of financial statements in conformity with Australian Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2.

New and amended standards adopted by the Group

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2023. The consolidated entity has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

(a) Principles of consolidation

(i) Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Oakridge International Limited ("Company" or "Parent Entity") as at 30 June 2023 and the results of all subsidiaries for the year then ended. Oakridge International Limited and its subsidiaries together are referred to in this financial report as the Group or the consolidated entity.

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Investments in subsidiaries are accounted for at cost in the individual financial statements of Oakridge International Limited and are eliminated on consolidation for the purpose of preparing these financial statements.

(ii) Joint arrangements

Under AASB 11 *Joint Arrangements* investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement.

Joint operations

The Group recognises its direct right to the assets, liabilities, revenues and expenses of joint operations and its share of any jointly held or incurred assets, liabilities, revenues and expenses. These have been incorporated in the financial statements under the appropriate headings. Details of the joint operation are set out in Note 27.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment. When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

(b) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operated ("the functional currency"). The consolidated financial statements are presented in Australian dollars, which is the Group's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss, except when they are deferred in equity as qualifying cash flow hedges and qualifying net investment hedges or are attributable to part of the net investment in a foreign operation.

(iii) Group companies

No subsidiaries in the Group have a functional currency which is different to the presentation currency of the Group.

(c) Revenue from contracts with customers

Revenue comprises revenue from the sale of goods, rendering of services, government grants and interest.

(i) Revenue recognised at a point in time

Revenue is recognised at a point in time (e.g. sale of goods) when the goods are received at a customer's specified location or control by the customer pursuant to a sales order, the risks of obsolescence and loss have passed to the customer, and the customer has either accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group have objective evidence that all criteria for acceptance have been satisfied.

(ii) Revenue recognised over time

Revenue is recognised over time (e.g. project or services) based on our achievement of milestones, if specified in the contract, or costs incurred as a percentage of estimated total costs for each contract where the Group have an enforceable right to payment for performance completed. Where it is probable that a loss will arise from a fixed price service contract, the Group immediately recognise the excess of total costs over revenue as an expense.

(iii) Government grants - cash flow boost assistance

Government assistance payments are recognised in the statement of profit or loss and other comprehensive income when the Group has reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them.

(iv) Interest revenue

Interest revenue is recognised as it accrues using the effective interest rate method.

(d) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be wholly settled within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liability for annual leave and provision for employee benefits. All other short-term employee benefit obligations are presented as payables.

(ii) Other long-term employee benefit obligations

The liabilities for long service leave and annual leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period of corporate bonds with terms and currencies that match, as closely as possible, the estimated future cash outflows.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Superannuation

The Group makes contributions to defined contribution superannuation funds. Contributions are recognised as an expense as they become payable.

(e) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is recognised for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised, or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amounts and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Tax consolidation legislation

Oakridge International Limited and its wholly owned Australian controlled entities have implemented the tax consolidation legislation. As a consequence, these entities are taxed as a single entity and the deferred tax assets and liabilities of these entities are set off in the consolidated financial statements.

Current tax expense/income, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax-consolidated Group are recognised in the separate financial statements of the members of the tax consolidated Group, using the 'separate taxpayer within Group' approach by reference to the carrying amounts of assets and liabilities in the separate financial statements of each entity and the tax values applying under tax consolidation.

Any current tax liabilities or assets and deferred tax assets arising from unused tax losses of the subsidiaries are assumed by the head entity in the tax-consolidated Group and are recognised as amounts payable (receivable) to (from) other entities in the tax-consolidated Group in conjunction with any tax funding arrangement amounts referred to in the following section. Any difference between these amounts is recognised by the Group as an equity contribution or distribution.

The Group recognises deferred tax assets arising from unused tax losses of the tax-consolidated Group to the extent that it is probable that future taxable profits of the tax-consolidated Group will be available against which the asset can be utilised. Any subsequent period adjustment to deferred tax assets arising from unused tax losses, as a result of revised assessments of the probability of recoverability, is recognised by the head entity only.

Nature of tax funding arrangements and tax sharing arrangements

The head entity, in conjunction with other members of the tax-consolidated Group, has entered into a tax funding arrangement, which sets out the funding obligations of members of the tax-consolidated Group in respect of tax amounts.

The tax funding arrangements require payments to/from the head entity equal to the current tax liability (asset) assumed by the head entity and any tax-loss deferred tax asset assumed by the head entity, resulting in the head entity recognising an inter-entity receivable (payable) equal in amount to the tax liability (asset) assumed.

Contributions to fund the current tax liabilities are payable as per the tax funding arrangement and reflect the timing of the head entity's obligation to make payments for tax liabilities to the relevant tax authorities.

The head entity, in conjunction with other members of the tax-consolidated Group, has also entered into a tax sharing agreement. The tax sharing agreement provides for the determination of the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognised in the financial statements.

(f) Cash and cash equivalents

For cash-flow presentation purposes, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(g) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. For financial assets, this is equivalent to the date that the Group commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value adjusted for transaction costs, except where the instrument is classified as fair value through profit or loss, in which case transaction costs are immediately recognised as expenses in profit or loss.

Trade and other receivables

Trade and other receivables arise from the Group's transactions with its customers and are normally settled within 30 days. Consistent with both the Group's business model for managing the financial assets and the contractual cash flow characteristics of the assets, trade and other receivables are subsequently measured at amortised cost.

Financial liabilities

Financial liabilities include trade and other payables, borrowings, other creditors and loans from third parties including intercompany balances and loans from or other amounts due to director-related entities. Non-derivative financial liabilities are subsequently measured at amortised cost, comprising original debt less principal payments and amortisation.

Financial liabilities are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Financial liabilities are either classified at fair value or amortised cost.

Classification of financial assets

Financial assets recognised by the Group are subsequently measured in their entirety at either amortised cost or fair value, subject to their classification and whether the Group irrevocably designates the financial asset on initial recognition at fair value through other comprehensive income (FVtOCI) in accordance with the relevant criteria in AASB 9.

Financial assets not irrevocably designated on initial recognition at FVtOCI are classified as subsequently measured at amortised cost, FVtOCI or fair value through profit or loss (FVtPL) on the basis of both:

- (a) the Group's business model for managing the financial assets; and
- (b) the contractual cash flow characteristics of the financial asset.

Impairment of financial assets

The following financial assets are tested for impairment by applying the 'expected credit loss' impairment model:

- (a) debt instruments measured at amortised cost;
- (b) debt instruments classified at fair value through other comprehensive income; and
- (c) receivables from contracts with customers and contract assets.

The Group applies the simplified approach under AASB 9 to measuring the allowance for credit losses for both receivables from contracts with customers and contract assets. Under the AASB 9 simplified approach, the Group determines the allowance for credit losses for receivables from contracts with customers and contract assets on the basis of the lifetime expected credit losses of the instrument. Lifetime expected credit losses represent the expected credit losses that are expected to result from default events over the expected life of the financial asset.

For all other financial assets subject to impairment testing, when there has been a significant increase in credit risk since the initial recognition of the financial asset, the allowance for credit losses is recognised on the basis of the lifetime expected credit losses. When there has not been an increase in credit risk since initial recognition, the allowance for credit losses is recognised on the basis of 12-month expected credit losses. '12-month expected credit losses' is the portion of lifetime expected credit losses that represent the expected credit losses that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

(g) Financial Instruments (continued)

The Group consider a range of information when assessing whether the credit risk has increased significantly since initial recognition. This includes such factors as the identification of significant changes in external market indicators of credit risk, significant adverse changes in the financial performance or financial position of the counterparty, significant changes in the value of collateral, and past due information.

The Group assumes that the credit risk on a financial asset has not increased significantly since initial recognition when the financial asset is determined to have a low credit risk at the reporting date. The Group considers a financial asset to have a low credit risk when the counter party has an external 'investment grade' credit rating (if available) of BBB or higher, or otherwise is assessed by the Group to have a strong financial position and no history of past due amounts from previous transactions with the Group. The Group assumes that the credit risk on a financial instrument has increased significantly since initial recognition when contractual payments are more than 30 days past due.

The Group determines expected credit losses using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the financial asset as well as current and future expected economic conditions relevant to the financial asset. When material, the time value of money is incorporated into the measurement of expected credit losses. There has been no change in the estimation techniques or significant assumptions made during the reporting period.

The Group has identified contractual payments more than 180 days past due as default events for the purpose of measuring expected credit losses. These default events have been selected based on the Group's historical experience. Because contract assets are directly related to unbilled work in progress, contract assets have a similar credit risk profile to receivables from contracts with customers. Accordingly, the Group applies the same approach to measuring expected credit losses of receivables from contracts with customers as it does to measuring impairment losses on contract assets.

The measurement of expected credit losses reflects the Group's 'expected rate of loss', which is a product of the probability of default and the loss given default, and its 'exposure at default', which is typically the carrying amount of the relevant asset. Expected credit losses are measured as the difference between all contractual cash flows due and all contractual cash flows expected based on the Group's exposure at default, discounted at the financial asset's original effective interest rate.

Financial assets are regarded as 'credit-impaired' when one or more events have occurred that have a detrimental impact on the estimated future cash flows of the financial asset. Indicators that a financial asset is 'credit-impaired' include observable data about the following:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) breach of contract;
- (c) the lender, for economic or contractual reasons relating to the borrower's financial difficulty, has granted concessions to the borrower that the lender would not otherwise consider; or
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

The gross carrying amount of a financial asset is written off (i.e. reduced directly) when the counterparty is in severe financial difficulty and the Group has no realistic expectation of recovery of the financial asset. Financial assets written off remains subject to enforcement action by the Group. Recoveries, if any, are recognised in profit or loss.

(h) Intangible assets

Intangible assets with finite lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives.

Patents and trademarks are recognised at cost on the date of acquisition. Trademarks have an indefinite life as the Group intends to renew its trademarks continuously when its trademarks expire at little cost. Trademarks are assessed to have an indefinite life and are tested annually for impairment and carried at cost less any accumulated impairment losses.

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are Grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or Groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of impairment at each reporting date.

(i) Inventories

Inventories are measured at the lower of cost and net realisable value. Net realisable value represents the estimate selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

(j) Plant and equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Depreciation of assets is calculated on the straight line and diminishing value methods to allocate their cost, net of their residual values, over their estimated useful lives. The depreciation rates used for each class of depreciable asset are:

Classification	Useful life	Depreciation basis
Plant and equipment	1-5 years	Diminishing value
Office equipment	1-20 years	Straight line
Computer equipment	1-4 years	Straight line
Software	2-2.5 years	Straight line
Motor vehicles	4 years	Diminishing value
Leasehold improvements	40 years	Straight line

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. The difference between the sale proceeds and the carrying amount of an asset is recognised in the statement of profit or loss and other comprehensive income.

(k) Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

(I) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

(m) Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

(n) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the financial year but not distributed at balance date.

(o) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the board of directors.

(p) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

(q) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the taxation authority, are presented as operating cash flows.

(r) Convertible Note

Convertible note that can be converted into ordinary shares at the option of the holder, where the number of shares to be issued is fixed, are accounted for as compound financial instruments, i.e. they contain both a liability component and an equity component.

At initial recognition the liability component of the convertible bonds is measured at fair value based on the future interest and principal payments, discounted at the prevailing market rate of interest for similar non-convertible instruments. The equity component is the difference between the initial fair value of the convertible note as a whole and the initial fair value of the liability component. Transaction costs that relate to the issue of a compound financial instrument are allocated to the liability and equity components in proportion to the allocation of proceeds.

The liability component is subsequently carried at amortised cost. Interest expense recognised in profit or loss on the liability component is calculated using the effective interest method. The equity component is recognised in the capital reserve until either the bonds are converted or redeemed.

If the notes are converted, the capital reserve, together with the carrying amount of the liability component at the time of conversion, is transferred to share capital and share premium as consideration for the shares issued. If the notes are redeemed, the capital reserve is released directly to retained profits

(s) Discontinued operations

A discontinued operation is a component of the Group that has been disposed of in the current, or prior, reporting period or is classified as held for sale at the reporting date, and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are disclosed separately in the statement of profit or loss and other comprehensive income.

(t) New accounting standards interpretations

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Standard Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

The Group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 July 2022:

 AASB 2020-3 Amendments to Australian Accounting Standards – Amendment to AASB 137 Provision, Contingent Liabilities and Contingent Assets – Onerous Contracts – Costs of Fulfilling a Contract.

The standards and amendments listed above did not have any impact on amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the consolidated entity for the annual reporting period ended 30 June 2023. The consolidated entity's assessment is that the standards and interpretations are either not relevant to the consolidated entity or are not expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

2. Critical accounting estimates, judgements and errors

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances. The critical estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Recoverability and classification of other receivable from K.S Orka

The Group has a receivable in relation to an additional payment from the sale of its interest in PT Sokoria Geothermal Indonesia. The payment of the receivable under the Payment Commitment Agreement between Oakridge International Limited and KS Orka Renewables Pte. Ltd. ('KS Orka') is triggered by KS Orka's Notice of Intent to Develop ('NOID') which is to be approved by PT PLN (Persero) under the Power Purchase Agreement ('PPA'). The Payment Multiple under the Payment Commitment Agreement is a factor of the Total Committed Capacity (as specified in the NOID) and the final negotiated Base Power Price per the PPA.

This receivable is carried at amortised cost less accumulated impairment. After taking into consideration the timing and final amount to be paid, management estimate the recoverable amount at 30 June 2023 to be \$Nil (2022: \$Nil). Any material change in the status of the project may result in a material change in the receivable to be recovered. This receivable has been classified as non-current at 30 June 2023 due to uncertainty in the timing of final settlement.

(b) Inventory

The Group assesses inventory for obsolescence each reporting date by evaluating whether the carrying value of inventory items exceeds its net realisable value. The net realisable value of the inventory is mainly determined based on assumptions of future demand within a specific time horizon. An allowance for obsolescence for the difference between the carrying value of an inventory items and its expected net realisable value.

(c) Deferred tax assets

The Group recognises deferred tax assets only to the extent that it is probable that future taxable profits, feasible tax planning strategies and deferred tax liabilities will be available against which the tax losses can be utilized. Estimation of the level of future taxable profits is therefore required in order to determine the appropriate carrying value of the deferred tax asset. Given the Group past losses, plans to continue research and development in other indications and uncertainty of its ability to generate future taxable profit, the Group does not believe that it is more probable than not that the Group can realize its deferred tax assets and therefore, it has not recognised any amount in the consolidated statements of financial position. Additional information is included in Note 7.

(d) Provision for taxation

In February 2021, a Group company received from the ATO a notice for late lodgement of tax returns for the tax years 2016 and 2017. As at the balance sheet date, the lodgement of the 2017 tax year has been made, however for the 2016 tax year, Management is still working on determining the nature, circumstances and the amount owed to the ATO before it is in a position to lodge the tax return for the 2016 tax year. However, Management has made a preliminary estimate of the tax payment owed to ATO of A\$82,369 (Note 15) in respect to the 2016 tax year. This estimate is based on the information the Company has today, and the final tax payment amount may need to be adjusted once the Company has collected all the documents. The Company has made the adjustment for this tax liability and expense retroactively in the 2016 financial statements, and has made corresponding adjustments to the Provision and the opening Retained Earnings accounts in the 2021 financial year.

(e) Receivables

The receivables at reporting date have been reviewed to determine whether there is any objective evidence that any of the receivables are impaired. For estimating the impairment of trade receivables, the Group applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(f) Provisions

As described in the accounting policies, provisions are measured at management's best estimate of the expenditure required to settle the obligation at the end of the reporting period. These estimates are made taking into account a range of possible outcomes and will vary as further information is obtained.

3. Financial risk management

The Group's principal financial instruments include cash and cash equivalents, term deposits, trade and other receivables, trade and other payables, and borrowings. The Group's business activities can expose us to a variety of financial risks, including market risk (including foreign exchange risk, price risk and interest rate risk), credit risk and liquidity risk.

The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's performance. We use sensitivity analysis to measure interest rate and foreign exchange risks, and aging for credit risk. The primary responsibility for risk management is carried out by the Group's executive director and CEO under policies approved by the Board of Directors. The executive directors and General Manager are responsible for the identification, evaluation and mitigation of financial risks.

It is the Group's policy that no trading in speculative financial instruments shall be undertaken. This does not prevent the Group from holding financial assets for strategic purposes.

Refer to Note 1 of these financial statements for further information on significant accounting policies applied, including the criteria for recognition of financial instruments, the basis of measurement, and the basis on which income and expenses are recognised.

(a) Financial instruments

The Group holds the following financial instruments:

	2023	2022
	\$	\$
Financial assets		
Cash and cash equivalents	1,091,900	1,725,273
Other financial assets	48,448	100,101
Trade and other receivables	100,890	217,540
	1,241,238	2,042,914
Financial liabilities		
Trade and other payables	231,574	346,859
Borrowings	32,548	277,325
Lease liability	256,227	-
	520,349	624,184

All financial instruments are classified and measured at amortised cost.

The carrying amount of financial assets (net of any provision for impairment) and current financial liabilities approximate their fair value primarily because of their short maturities. The carrying amount of any non-current borrowings approximates fair value because the interest rate applicable to the borrowing approximates current market rates.

(b) Market risk

Foreign exchange risk

Foreign exchange risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency other than Australian dollars. From time to time the Group make sales to customers who require the currency of settlement to be a foreign currency. The Group has not entered into forward currency contracts to hedge these exposures due to the short time frame associated with the currency exposure and the Group's limited foreign currency exposure.

At 30 June 2023 and 2022 the Group's exposure to foreign currency risk was immaterial.

Price risk

The Group is not exposed to equity securities or commodity price risk.

3. Financial risk management (continued)

Interest rate risk

The Group's exposure to interest rate risk arise predominantly from cash and cash equivalents bearing variable interest rates. The Group's cash position fluctuates regularly, and ongoing liquidity needs mean most of the Group's funds are maintained in at-call accounts. The Group's term deposit and short-term borrowings are held in fixed interest rate accounts and are not subject to interest rate risks.

	30 June 2023		30 June 2022		
	Weighted average interest rate Balance \$		Weighted average interest rate Baland % \$		
Cash and cash equivalents	0.15%	1,091,900	0.15%	1,725,273	

At balance sheet date, if the interest rates had changed, as illustrated in the table below, with all other variables remaining constant, after-tax profit and equity would have been affected as follows:

	After-tax profit higher / (lower)		Equity higher / (lower)	
	2023	2022	2023	2022
	\$	\$	\$	\$
+1.00% (100 basis points) (FY21: +1.00%)	10,919	17,253	10,919	17,253
-1.00% (100 basis points) (FY21: -1.00%)	(10,919)	(17,253)	(10,919)	(17,253)

(c) Credit risk

Credit risk arises from financial assets of the Group, which comprises cash and cash equivalents, term deposits and trade and other receivables. The Group's exposure to credit risk arises from potential default of the counter party, with a maximum exposure equal to the carrying amount of these instruments. The Group does not hold any credit derivatives to offset the credit exposure.

Specific information as to the Group's credit risk exposures is as follows:

- · Cash and cash equivalents and term deposits are maintained at the Commonwealth Bank of Australia
- Policies are in place to ensure that sales are made to customers with an appropriate credit history. The risk control
 procedures assess the credit quality of the customer, taking into account its financial position, past experience and
 other factors. The Group's customers generally do not have an independent credit rating. No collateral is obtained from
 customers.

The following table details the Group's trade and other receivables exposed to credit risk with aging analysis and expected credit loss provided for thereon. Amounts are considered as "past due" when the debt has not been settled within the terms and conditions agreed between the Group and the customer or counterparty to the transaction. Receivables that are past due are assessed for impairment by ascertaining solvency of the debtors and are provided for where there are specific circumstances indicating that the debt may not be fully repaid to the Group. The balance of receivables that remain within initial trade terms (as detailed in the table) are considered to be of high credit quality.

	Gross amount \$	Within trade terms current \$	31-60 days \$	61-90 days \$	90-365 days \$	365+ days \$	Credit loss allowance \$	Expected credit loss
<u>2023</u>

KS Orka receivable	1,082,628	-	-	-	-	1,082,628	(1,082,628)	100%
-	1,168,667	66,698	2,200	12,143	4,998	1,082,628	(1,082,628)	-

3. Financial risk management (continued)

(d) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities in order to meet the Group's forecast requirements. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Surplus funds are invested in term deposits. At reporting date, the Group did not have access to any undrawn borrowing facilities.

Maturity of financial liabilities

The table below categorises the Group's financial liabilities into relevant maturity Groups based on their contractual maturities, calculated as their undiscounted cash flows. All the financial liabilities are non-derivative.

			Total	
	Less than 12	Between 2 and	contractual	Carrying
	months	5 years	cash flows	amount
	\$	\$	\$	\$
<u>2023</u>				
Non-interest bearing				
Trade and other payables	231,574	-	231,574	231,574
Borrowings	32,548	-	32,548	32,548
	264,122	-	264,122	264,122
Interest bearing				
Lease liability	63,324	192,903	256 227	256 227
	03,324	192,903	256,227	256,227
Convertible Note		-	-	-
	63,324	192,903	256,227	256,227
<u>2022</u>				
Non-interest bearing				
Trade and other payables	346,859	-	346,859	346,859
Borrowings	277,325	-	277,325	277,325
•	624,184	-	624,184	624,184
Interest bearing				
Convertible Note	-	_	_	_
Lease liability	-	_	_	_
	-	-	-	-

Lease liabilities in the current period have an interest rate of 3.5% per annum. All other financial liabilities do not attract interest.

4. Operating segments

Identification of reportable segments

The Group has identified its operating segments based on the internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics and meet the other aggregation criteria of AASB 8 *Operating Segments*.

Operating segment are Australian based unless otherwise stated.

Activity by segment

Healthcare technology

JCT Healthcare Pty Ltd ("JCT"), a wholly owned subsidiary of the Company, is a provider of innovative technology solutions for the healthcare sector. JCT develops and distributes its own range of nurse call hardware and software solutions for use across multiple healthcare sectors including hospitals, aged care, disability care and supported independent living.

Technology development

Technology focussed on the Internet of Things (IoT) technology.

Geothermal projects

Oakridge International held interests in three geothermal projects in Indonesia:

- Sokoria Geothermal Project, under a Joint Venture with PT Bakrie Power, for a 30 MW geothermal development on Flores Island, Indonesia, with Oakridge International holding a 45% interest in the project. On 16th January 2017 KS Orka completed acquisition of Sokoria Geothermal Project. Under the terms of the SPA Oakridge International received the nominal amount of US\$1. An additional payment of up to US\$947,368 will become payable within 30 days of KS Orka issuing notification of intent to develop project. This project has been fully impaired. In March 2022, Oakridge International received a notification of intent to develop a portion of the project which resulted in a payment from KS Orka of US\$157,939 or \$217,372. Oakridge International may receive additional payments if KS Orka commits to further development.
- Ngebel Geothermal Project, under a Joint Venture with PT Bakrie Power, for a 165 MW geothermal development on East Java, Indonesia, with Oakridge International holding a 35% interest in the project. The Group will not seek to further invest in the Ngebel project and an impairment charge was recorded against the full carrying value of the asset at 30 June 2016, and has no further commitment to development of this project.
- Dairi Prima Geothermal Project, under a Joint Venture with PT Bakrie Power, for a 25 MW geothermal development in Northern Sumatra, Indonesia, with Oakridge International holding a 51% interest in the project. The Group will not seek to further invest in the Dairi Primal project and an impairment charge was recorded against the full carrying value of the asset at 30 June 2016, and has no further commitment to development of this project.

Oakridge International held an interest in a geothermal project in India:

Puga Geothermal Project in the Himalayan Geothermal Province of Northern India, in a joint venture between Oakridge
International and Geosyndicate Power Private, under which Oakridge International is earning in to a 49% interest.
Oakridge International is the Operator of this Project. An impairment charge has been recorded against the full
carrying value of the asset as at 30 June 2016 and the Group is looking to divest its interest in the project.

Unallocated

Comprising overhead costs such as director's fees, listing and share registry fees, acquisitions and associated costs.

The term deposit held at 30 June 2023 was used as security on a bank guarantee to secure the Company's obligations under the lease over the Company's corporate office.

Term deposits as at 30 June 2022 are held as security in favour of South Australian Government (PIRSA) of \$100,000 for the Limestone Coast tenements. The term deposits are recognised and measured as amortised cost financial assets. Correspondingly, the Company had made provisions of \$100,280 in the prior year for the estimated restoration and rehabilitation costs which have been downgraded to \$0 in the current year as disclosed under Note 15.

During the current financial year on 13 July 2022, Oakridge International announced that the legacy issue of the plugging, abandonment and remediation of the Salamander 1 Geothermal Well had been completed and the Company had surrendered the Geothermal Exploration Licence GEL 223. The Company also announced that it had received confirmation of a discharge on the bank guarantee to the value of \$100,000 on the public and commercial licence register.

	2023	2022
	\$	\$
Current:		
Loan – Bio SA	32,548	277,325

On 1 December 2012, JCT Healthcare Pty Limited ("JCT"), a subsidiary of the Company, received a grant of \$230,000 under a Deed of Grant with Techin SA (formerly Bio Innovation SA) for the development of a web based messaging software licence. The development was completed on 30 June 2013. Pursuant to the Deed of Grant, for a period of 10 years ("Term of the Grant") the amount of the outstanding loan shall accrue annual indexation fees calculated at the Consumer Price Index on the outstanding loan amount. During this Term of the Grant, JCT is obligated to pay the loan from the royalties calculated on 7% of the income derived from the commercialization of the messaging software. The Deed of Grant terminates on 30 June 2023.

As at 30 June 2023, the current portion of the outstanding loan, inclusive of the accrual annual indexation fees, amounting to \$301,982 of which approximately \$32,548 is payable on the royalties outstanding and payable for the period from 1 July 2019 to 30 June 2023.

The web based messaging software licence derived approximately \$10,000 in royalty repayments for the year ended 30 June 2023 and it is not expected to derive any material royalty revenue and Loan repayments to the Group in the future. As a result, it is unlikely that JCT will need to repay the Loan amount of \$269,434, including any future annual indexation, as it will no longer derive any royalty income which is the basis of the Loan repayment. Accordingly, the Company has accounted \$32,548 for the amount of the royalties outstanding and payable for the period for 1 July 2019 to 30 June 2023 in the Borrowings account on the balance sheet. The remaining balance of \$269,434 has been accounted for in the Profit and Loss account as a reversal of borrowings, and also disclosed in Note 25 as a contingent liability in the event of certain conditions set out in the Term of the Grant including JCT becoming bankrupted or move out of state of South Australia in the future.

The Company's wholly owned subsidiary, JCT Healthcare Pty Ltd, leases office and warehouse on a month to month basis.

In March 2023, the Company entered into an agreement to lease a corporate office for a term of four years from 13 March 2023 to 12 March 2027. The Company opened a term deposit which was used as security on a bank guarantee to secure the Company's obligations under the lease over the Company's corporate office.

⁽i) On 1 December 2021 the Company completed the consolidation of its shares of 200 ordinary shares in the Company into 1 ordinary share in the Company.

(b) Employee share option scheme

On 26 November 2021, Shareholders of the Company approved, at the Company's Annual General Meeting, an incentive scheme pursuant to which the Company can grant awards to attract, motivate and retain key Directors, employees and consultants and provide them with the opportunity to participate in the future growth of the Company.

The Group did not issue any share options during the financial year and there were no share options outstanding at the end of the financial year.

(c) Capital management

With regard to managing capital (equity), the director's objectives are to ensure the Group continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. The board adjusts the capital structure as necessary to take advantage of favourable costs of capital or high returns on assets. As the market is constantly changing, the board may change the amount of dividends to be paid to shareholders, return capital to shareholders, issue new shares or reduce debt that may be incurred to acquire assets.

No dividends were paid during the year (2022: \$nil).

(b) Guarantees entered into by the parent entity

Oakridge International Limited has not guaranteed the debts of any of its subsidiaries in the Group.

(c) Contingent liabilities of the parent entity

On 31 December 2019, Oakridge International Limited entered into a Share Placement Agreement ("SPA") issuing 250 million ordinary shares in the Group at \$0.001 per ordinary share, on a pre consolidated basis, for total proceeds of \$250,000. At the time of this transaction, Mr Con Unerkov was appointed to the Board of the parent company. Pursuant to the SPA, the parent company made certain representations in respect to liabilities in the Group to Teko International Limited, the purchaser. However, in the process of preparing the Group's accounts for the year ended 30 June 2020, the Group became aware that some of the representations made by the Group were not accurate.

The Group is currently seeking legal advice to determine the extent of its legal liabilities in respect of a potential breach of the SPA. At the date of this report, the Group has not been able to quantify the liability, if any, in respect to these breaches.

Teko International Limited is a related party by virtue of its shareholding and may exercise significant influence as a result of its 18.17%, being the largest shareholder, equity interest in the Company.

(d) Contractual commitments for capital expenditure

The parent entity did not have any contractual commitments for capital expenditure as at 30 June 2023.

(e) Corporate office lease bank guarantee

In March 2023, the Company entered into an agreement to lease a corporate office for a term of four years from 13 March 2023 to 12 March 2027. The Company opened a term deposit which was used as security on a bank guarantee to secure the Company's obligations under the lease over the Company's corporate office.

2023

2022

25. Contingent liabilities

Other than the contingent liabilities in Note 24(c) and the contingent liabilities below, the Group had no contingent liabilities as at 30 June 2023.

On 1 December 2012, JCT Healthcare Pty Limited ("JCT"), a subsidiary of the Company, received a grant of \$230,000 under a Deed of Grant with Techin SA (formerly Bio Innovation SA) for the development of a web based messaging software licence. The development was completed on 30 June 2013. Pursuant to the Deed of Grant, for a period of 10 years ("Term of the Grant") the amount of the outstanding loan shall accrue annual indexation fees calculated at the Consumer Price Index on the outstanding loan amount. During this Term of the Grant, JCT is obligated to pay the loan from the royalties calculated on 7% of the income derived from the commercialization of the messaging software. The Deed of Grant terminates on 30 June 2023.

As at 30 June 2023, the current portion of the outstanding loan, inclusive of the accrual annual indexation fees, amounting to \$301,982 of which approximately \$32,548 is payable on the royalties outstanding and payable for the period from 1 July 2019 to 30 June 2023.

The web based messaging software licence derived approximately \$10,000 in royalty repayments for the year ended 30 June 2023 and it is not expected to derive any material royalty revenue and Loan repayments to the Group in the future. As a result, it is unlikely that JCT will need to repay the Loan amount of \$269,434, including any future annual indexation, as it will no longer derive any royalty income which is the basis of the Loan repayment. Accordingly, the Company has accounted \$32,548 for the amount of the royalties outstanding and payable for the period for 1 July 2019 to 30 June 2023 in the Borrowings account on the balance sheet (Note 14). The remaining balance of \$269,434 has been accounted for in the Profit and Loss account as a Reversal of Borrowings, and also disclosed as a contingent liability in the event of certain conditions set out in the Term of the Grant including JCT becoming bankrupted or move out of state of South Australia in the future.

26. Commitments

Operating leases	\$	\$
Due within one year	71,292	-
Due between one year and five years	202,465	-
Due after five years	-	-

27. Controlled entities

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in Note 1(b).

Name of entity	Country of incorporation	Class of shares	Equit	y holding
			2023	2022
			%	%
Oakridge Asia Holdings Pty Ltd	Australia	Ordinary	100	100
Oakridge Healthcare Pty Ltd	Australia	Ordinary	100	100
Osiris Energy Pty Ltd ⁽¹⁾	Australia	Ordinary	100	100
JCT Healthcare Pty Ltd	Australia	Ordinary	100	100

(1) Converted from a public company to a proprietary company

Disposal of subsidiaries

The Group made the following changes to the group composition during the prior year:

• JCT Asia Limited Shares were sold for the amount of \$1,632 (\$US1,200).

The details of the net gain on the disposal/wind up of subsidiaries during the year are set out below:

	30 June 2023 \$	30 June 2022 \$
Settlement of liability		1,632
Carrying amount of net liabilities derecognised:		
Other assets	-	952
Plant and equipment	-	-
Trade payables and accrual	-	-
	-	952
Gain on disposal of shares in subsidiaries		680

Interests in joint arrangements

The Group has the following significant interests in joint arrangements.

(a) Joint arrangements

The Group has a 45 per cent equity shareholding in P.T. Sokoria Geothermal Indonesia with 50% voting power, a joint venture established in Indonesia with P.T. Bakrie Power, the Group's joint venture partner, to pursue the development of the Sokoria geothermal Project on the island of Flores in Indonesia.

On 16 January 2017 KS Orka completed acquisition of Sokoria Geothermal Project. Under the terms of the SPA Oakridge International received the nominal amount of US\$1.00. An additional payment of up to US\$947,368 will become payable within 30 days of KS Orka issuing notification of intent to develop project. After taking into consideration the timing and final amount to be paid, management has decided to fully impair the amount receivable. In March 2022, Oakridge International received a notification of intent to develop a portion of the project which resulted in a payment from KS Orka of US\$157,939. Oakridge International may receive additional payments if KS Orka commits to further development.

(b) Joint operations

The Group has a 51 per cent interest in the Dairi prima Geothermal Project, a joint operation with P.T. Bakrie power to jointly develop spare capacity of the Sibayak geothermal reserves in Northern Sumatra, Indonesia, to be supplied to the Dairi Prima mine. These projects were fully impaired in the previous years. The Group will look to divest its impaired projects moving forward.

28. Subsequent events

Other than the subsequent events listed below, there were no other significant events after the financial year end.

In July 2023, the Group's facilities incurred water damage to its equipment and other assets due to a water leak on the premise. The Group is in discussion with its insurer on the extent of the damage and the possible claims, both of which are still undetermined at the date of this report.

OAKRIDGE INTERNATIONAL LIMITED

DIRECTORS' DECLARATION

In the directors' opinion:

- (a) the attached financial statements and notes are in accordance with the Corporations Act 2001, including:
 - (i) complying with Australian Accounting Standards and the Corporations Regulations 2001; and
 - (ii) giving a true and fair view of the Group's financial position as at 30 June 2023 and of its performance, as represented by the results of its operations and its cash flows, for the financial year ended on that date;
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1(a);
- (c) there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable; and
- (d) the directors have been given the declarations required by section 295A of the Corporations Act 2001.

This declaration is made in accordance with a resolution of directors.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF OAKRIDGE INTERNATIONAL LIMITED AND CONTROLLED ENTITIES

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Oakridge International Ltd and controlled entities (the Company), which comprises the consolidated statement of financial position as at 30 June 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion:

- a) the accompanying financial report of the Company is in accordance with the *Corporations Act* 2001, including:
 - i. giving a true and fair view of the Company's financial position as at 30 June 2023 and of its financial performance for the year then ended; and
 - ii. complying with Australian Accounting Standards and the Corporations Regulations 2001.
- b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

KEY AUDIT MATTER – INVENTORY VALUATION Refer to Note 11 Inventory

As at 30 June 2023 the Group carries a provision for inventory obsolescence of \$440,789.

The valuation of inventory is deemed a key audit matter to the level of estimation and judgement applied.

Our procedures included, amongst others:

- obtaining and evaluating management assessment of Inventory Obsolescence.
- evaluated the reasonableness and accuracy of key assumptions.
- performing a recalculation based on management's assumptions,
- performing net realisable value testing a sample of inventory on hand at year end.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Company's annual report for the year ended 30 June 2023, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the

financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located on the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf (Group Audit). This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 7 to 11 of the directors' report for the year ended 30 June 2023.

In our opinion, the Remuneration Report of Oakridge International Limited and controlled entities, for the year ended 30 June 2023 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
